PART 1 - ITEM 1. DETERMINE THE NEED FOR FULL FULL HABITAT MANAGEMENT PROGRAM (HMP)

All Applicants submitting Projects involving Ground Disturbing Activities are subject to HMP requirements. The HMP must cover the combined Project Area of all proposed Projects with Ground Disturbing Activities.

Applicants able to certify that none of the proposed activities listed in the Application in areas open to legal OHV Recreation contain any risk factors to special-status species and/or sensitive habitats shall submit only HMP Part 1. Applicants who cannot certify that the proposed activities listed in the Application in areas open to legal OHV Recreation do not contain any risk factors to special-status species and/or sensitive habitats shall submit HMP Parts 1 and 2.

1. Do any of your proposed projects involve Ground Disturbing Activities? (Please select ☐ Yes ☒ No Yes or No)
2. Can the Applicant certify that none of the proposed Projects with Ground Disturbing Activities in areas open to legal OHV Recreation contain any risk factors to special-status species and/or sensitive habitats? (If you checked 'Yes', you are done with HMP) (Please select Yes or No) ☐ Yes ☒ No

1. Applicant Certifications

A. General Conditions

- A. The Applicant hereby certifies, under the penalty of perjury, compliance with the following ☒ terms and conditions:
1. If the Project involves a Ground Disturbing Activity, the Applicant agrees to monitor the condition of soils and wildlife in the Project Area each year in order to determine whether the soil conservation standard adopted pursuant to Public Resource Code (PRC), Section 5090.35 and the HMP prepared pursuant to Section 5090.53(a) are being met.
 2. If the Project involves a Ground Disturbing Activity, the Applicant agrees that, whenever the soil conservation standard adopted pursuant to PRC Section 5090.35 is not being met in any portion of a Project Area, the recipient shall close temporarily that noncompliant portion, to repair and prevent accelerated erosion, until the same soil conservation standard adopted pursuant to PRC Section 5090.35 is met.
 3. If the Project involves a Ground Disturbing Activity, the Applicant agrees that, whenever the HMP prepared pursuant to PRC Section 5090.53(a) is not being met in any portion of a Project Area, the recipient shall close temporarily that noncompliant portion until the same HMP prepared pursuant to PRC Section 5090.53(a) is met.
 4. The Applicant agrees to enforce the registration of off-highway motor vehicles and the other provisions of Division 16.5 (commencing with Section 38000) of the Vehicle Code and to enforce the other applicable laws regarding the operation of off-highway motor vehicles.
 5. The Applicant agrees to cooperate with appropriate law enforcement entities to provide proper law enforcement at and around the Facility.
 6. The Applicant's Project is in accordance with local or federal plans and the strategic plan for OHV Recreation prepared by the OHMVR Division.

B. Programmatic Conditions

B. The Applicant must describe the following programmatic conditions:

1. Identify the potential for the facility to reduce illegal and unauthorized OHV Recreation activities in the surrounding areas:

The CTUC inconjunction with the cooperation of all it's Federal, State and Local Agencies continue to monitor the project area for signs of criminal activities. By increasing patrols in known problem areas and repairing illegal trail access shows the general public that this agency and local volunteers take their jobs seriously. Having a constant presence does a lot to reduce most damage to our resourses

2. Describe how the Applicant is meeting the operations and maintenance needs of any existing OHV Recreation Facility under its jurisdiction:

The CTUC agreements in place allow us to augment support for all of these facilities by cleaning, painting and assisting the visitors. These activities coupled with road and trail maintenance keep the project area more useful and appeal to a larger group of out sporting visitors. The appearance of the grounds and facilities are important to all and demonstraite that we are concerned stewards of the land and other natural resources.

C. Fee Collection

Describe how fees collected pursuant to Section 38230 of the Vehicle Code (in-lieu funds) are utilized and whether the fees complement the Applicant's proposed Project:

D. Compliance with PRC 5090.50(b)(1)(C)

Projects within the O&M category that affect lands identified as inventoried roadless areas by the U.S. Forest Service, are compliant with PRC 5090.50(b)(1)(C). (Please select Yes or No)

☒ Education programs, maps and/or brochures provided to the public address OHV trespass, including respect for private property (2 points)

Explain measures utilized to prevent OHV trespass into neighboring properties and/or closed areas

(Sierra NF) The Forest emphasizes the importance of protecting sensitive and closed areas, private property and designated wildernesses. Signing and barriers are used throughout the Forest to keep vehicles on designated routes and out of closed and sensitive areas. Properly placed signs assist in preventing soil loss along the routes and in the more sensitive creek crossing locations, protecting sensitive plant sepcies and preventing a loss of wildlife habitat.

The Forest primarily uses the "Carsonite" style sign system, and standard Forest Service signs and posters. Carsonite posts are installed to close an area with barracades reinforcing the closure. The barriers used are rails constructed from cedar poles and large boulders.

Describe Land Manager's onsite education efforts:

The Angeles National Forest (ANF) covers 70% of the open space in Los Angeles county with a population of over 11 million people. This large population base results in very high use of the Off Highway Vehicle (OHV) areas on the ANF most of these users are new to the sport and are unaware of many state and federal laws on OHV use. The ANF OHV employees regularly attend user shows such as the Off Road Expo in Pomona and the International Motorcycle Show in Long Beach. OHV staff also attends community events such as staffing a booth with the Los Angeles County Sheriffs Department at the local mall in the town of Valencia, attend local parades in towns such as Acton and Lake Elizabeth, and work with local OHV dealers by providing trail maps, and provide sound testing to enable OHV users to correct non compliant sound levels of their vehicles prior to visiting the ANF. Most OHV patrols are scheduled for weekends and holidays with contacts ranging from warnings to issuing of violation notices.

Does the Land Manager maintain a management information system managed by qualified environmental staff that identifies and monitors the impacts of the OHV activity and contains at least the following:

- Ongoing survey/inventory of species
- Ongoing survey/inventory of archeological sites
- Biological monitoring that measures changes in populations
- Components that evaluate the effects of OHV recreation and related activity on the species;
- Recommendations for improvement in species management
- Strategies to respond to changing conditions that affect the survival or reproduction of species? (Please select one from list)

- ☐ No (No points) ☒ Yes (5 points)

Reference Document

Archeological sites that are in conflict with OHV use are monitored on an annual basis by a certified forest archeologist. A report is generated outlining any impacts from OHV activities and the mitigation measures that need to be implemented to resolve the issues.

Wildlife monitoring is completed annually to identify any habitat or species population changes attributed to OHV use. A qualified Wildlife Biologist will recommend any changes needed to improve habitats or species populations.

12. Soil Management

12. Soil Management - Page 1

- a. Land Manager has developed a systematic methodology for evaluating soil conditions of its OHV Opportunities? 5

(Check the one most appropriate) (Please select one from list)

- ☐ No (No points) ☒ Yes (5 points)

Explain 'Yes' response A Soils Conservation Plan has been established following the 2008 Soil

Conservation Standard and Guidelines. Within the plan are protocols for assessment, trail maintenance and monitoring to evaluate soil condition. (Sierra NF) The soil monitoring program monitors soils and impacts, followed by corrective action, ensures that soil resources will be protected, with no significant effect on the environment.

- b. Land Manager has developed methods to address soil issues? 5

(Check the one most appropriate) (Please select one from list)

☐ No (No points)

☒ Yes (5 points)

Explain 'Yes' response Methods to address soil issues are established in the Soils Conservation Plan. (Sierra NF) Protect is afforded by adherence to the Best Management Practices. The BMP's are further described in the Forest Service Region 5 Soil and Water Conservation Handbook (FSH R5 Supp 1).

☐ On most (50% or more) holidays and weekends (4 points)

☒ At least 25% but less than 50% of holidays and weekends (2 points)

☐ Less than 25% of holidays and weekends (No points)

Describe the sound testing program

Sound testing is done on weekends and holidays by trained staff, this often results in a warning or a federal violation notice being issued for non compliance. The users are also given information as to where they might acquire the proper equipment to meet the sound standards. A log of the sound test results is available at the Santa Clara/Mojave Rivers Ranger District office. Sound testing is also provided at local motorcycle dealerships thereby enabling OHV users to correct the non compliant sound levels of their vehicles prior to visiting the ANF and reducing field contacts for this type of violation in the future and allowing enforcement staff to enforce more serious violations or respond to calls for medical aid.
